

EnSafe ... Your M&A Partner

Successful due diligence during an acquisition can “make” the financial viability of the transaction. With EnSafe as your partner we can make the transaction successful. EnSafe brings a fully integrated team of EHS professionals to partner with you. Our approach comprehensively addresses environmental as well as health and safety issues that must be considered during the acquisition. EnSafe’s M&A team understands the full gamut of costs to bring manufacturing facilities and/or real property into compliance. From machine guarding to subsurface contamination to permitting and regulatory compliance, our team understands how these can affect your bottom line. Our goal is to assist our clients not only to identify and cost these issues, but further to implement risk-reduction processes which will ensure that corporate and shareholder value is retained post-acquisition.

creative thinking. custom solutions.
