ENSAFE

EHS SERVICES FOR PULP & PAPER INDUSTRY

EnSafe is a national leader in providing Environmental, Health & Safety (EHS) services for the pulp and paper industry. We truly understand the industry's regulatory compliance needs and are experienced in navigating the myriad of local, state, and federal EHS regulations facing the industry. We're eager to be your valued partner!

AIR QUALITY

Air permit applications
Semiannual air reports
Emissions inventories
Risk management program (RMP)
New source review (NSR)
Prevention of significant deterioration (PSD)
Dispersion modeling
Control technology evaluations

CLEAN WATER/ OIL POLLUTION PREVENTION

Stormwater pollution prevention plans (SWPPP)
Spill prevention, control, and countermeasure plans (SPCC)
Process/Industrial wastewater evaluation
Operation and maintenance planning
Treatment design and operations
Aboveground (AST) and underground storage tanks (UST)
Permitting and compliance

EMERGENCY PLANNING & COMMUNITY RIGHT-TO-KNOW ACT (EPCRA)

Release reporting
Tier II & Form R reports
Emergency response plans

HAZARDOUS/SOLID WASTE

Waste characterization
Hazardous & Universal waste assessments and reporting

ENVIRONMENTAL MANAGEMENT SYSTEMS (EMS/ISO 14001)

EMS gap analysis & program development and implementation

RESOURCE CONSERVATION & RECOVERY ACT (RCRA)

Contingency planning
Permitting
Waste minimization

SAFETY PROGRAMS/ SUPPORT

Development of OSHA required written programs
Review of existing written programs
Construction safety support
Safety staff augmentation
Incident investigations
Safety training

PROCESS SAFETY MANAGEMENT

Process Safety Management (PSM) Development
Process Hazard Analysis (PHA)
PSM Compliance Audits
Mechanical Integrity Programs

RISK ASSESSMENT

Job hazard analysis
Personal protective equipment assessments & selection
Lockout/Tagout (LOTO) procedures
Confined space hazard assessments
Machine guarding assessments
Electrical Arc Flash assessments (NFPA 70E)
Life safety evaluations
Combustible Dust Hazard Analysis

INDUSTRIAL HYGIENE

Baseline & Periodic Air Sampling
Indoor Air Quality Assessment
Microbiological (Mold) Assessments & Solutions
Program Evaluation & Development
Noise Evaluations & Controls
Ventilation System Assessment
Chemical Exposure & Control Assessments
Asbestos & Lead Assessments

OSHA VOLUNTARY PROTECTION PROGRAM (VPP)/OHSAS 18001

VPP gap analysis
Program development and implementation

creative thinking. custom solutions.

Over 20 years of specialized experience providing compliance support and services to the pulp & paper industry.

Use of mobile electronic equipment/tablets to streamline risk assessment processes and customize form development for site-specific use.

Nationwide offices with certified professionals in many states.

Ability to train your staff in OSHA compliance, emergency response planning, internal team building, and auditor training.

Experienced auditors to assist with EHS compliance audits or gap assessments in preparation for corporate audits.

Company commitment to safety: passed 1,500,0000 man hours worked without an OSHA recordable incident.

EnSafe conducts dust hazard analyses (DHAs) using methods detailed in the National Fire Protection Association (NFPA) Standard 652, Standard on the Fundamentals of Combustible Dust and other relevant NFPA standards relating to combustible dust.

Technical Expertise

Certified Industrial Hygienists (CIH)
Certified Safety Professionals (CSP)
Certified Professional Engineers (PE)
Certified Hazardous Materials Manager (CHMM)
