

EnSafe Inc. is a global professional services firm providing engineering, environmental, health & safety, staff augmentation, and technology services to industry and government clients worldwide. When it comes to supporting our client's Facilities Engineering and Maintenance Departments, EnSafe has provided a variety of support services including design-build-construct, contractor safety oversight and evaluating ecological receptors prior to construction. The value we bring to our clients includes our outside-the-box thinking that leads to innovative and cost-effective solutions. Our solutions stand out because we provide our clients with the complete picture – specific goals, constraints, and risks clearly communicated. This “front and center” approach drives strategic, nimble delivery.

Our engineers do more than just satisfy budget and schedule. Our tailored solutions validate the trust and care that our long-standing relationships are built on. Our dedication to the stewardship of our clients' resources is best explained by one of our long-standing clients: ***“EnSafe personnel always think about the issues as if they were in your shoes as owners of the business.”***

creative thinking. custom solutions.

ENGINEERING SOLUTIONS

- Design-Build-Construct
- Land Development & Site Planning/Design
- Hydrology & Hydraulics
- Watershed Studies, Stormwater Management & Design
- Steam/Bank Stabilization & Restoration
- Green Infrastructure
- Construction Engineering & Inspection
- Roads, Driveways, & Parking Lots

ENGINEERING DESIGN/TECHNICAL EXPERTISE

- Civil Engineers
- Sanitary Engineers
- Transportation Engineers
- Chemical Engineers
- Environmental Engineers
- Flood Plain Managers
- Wetland Scientist
- Biologists
- Chemical/Process Safety Management Engineering

CONSTRUCTION SUPPORT

- Sanitary Sewer & Lift Station Design
- Site Improvements
- Construction Management & Contractor Safety Oversight
- Sewer, Water, & Storm Water Utilities
- Water Treatment, Storage, & Distribution Systems
- Process/Facility Decontamination & Decommissioning
- Wastewater Collection & Treatment
- Construction Cost Estimating, Decision Cost Analysis
- Engineering & Maintenance Staff Augmentation

AWARD-WINNING DESIGNS

EnSafe is a perennial winner of ACEC & DoD awards.

LIFE CYCLE DESIGN

We get projects off the ground with creative planning, implementable concept and detailed designs.

Key Markets/Clients

Departments of Transportation (DOTs)
Department of Defense (DoD)
Municipalities/County Government
State Government
Construction
Metals
Pulp & Paper/Forestry
Aerospace
Agriculture
U.S. Navy
Lockheed Martin Corporation
United Technologies Corporation/Raytheon
